

CLEAR VISTA SCHOOL

May 5, 2021

Clear Vista Families,

As announced yesterday by Premier Kenney, and as [messed out earlier today by WRPS](#): all K-12 students will be shifting to online learning from May 7 - May 21, 2021. Our LA2 and LA3 system programs will be continuing in person learning as per exemptions provided by Alberta Education.

Clear Vista Teachers will be sending home materials and preparing students to learn at home with our primary platform being Google Classroom. They will Google Meet with students on Friday, May 7 with work provided for students to work on independently for that day. Homeroom teachers will individually send home their online learning schedule by the end of May 7 for the following weeks which will include: times for core subjects, when they will be having whole class and small group meets and how they will be available for questions and support throughout the school days as they normally would be.

If your child needs to borrow a chromebook from the school to support their learning, please complete this "[School Chromebook Loan Agreement](#)" and we will do our best to facilitate your request. Mr. Daly will be coordinating chromebook lending and distribution to our families; please feel free to contact him directly if you have any questions.

Our school office will be open as usual in the event that families need to contact us with questions or for support; our Educational Assistants, our Indigenous Support Worker, and Family School Liaison Worker will also still be providing supports to students as needed. Please feel free to reach out to the school; we are happy to help support your family!

Warm Regards,

Mr. Van Someren
Principal

4510-47 Street Wetaskiwin, AB T9A 1B8
