and a passion for learning.

classmates, sharing your knowledge and
leading by example.

Your enthusiasm can motivate others to
persevere through challenges and to do
their best.

Classroom Spotlight

The 4L class sorted garbage during our Matter and Waste unit. Students separated waste into recyclable items, non recyclable items, and food. We have been learning about how waste affects our environment and how it is our responsibility to help our environment by recycling and reducing the amount of waste that we consume. It was an eye opener to see how much food we throw out! Students in 4L are making individual changes to make more environmentally friendly choices.
